

**Our election system is broken. For every office in the land.** The root of the problem: we are limited to one choice in each vote. This gives more weight to voters who prefer fewer candidates. This vote-splitting inequality limits every election to at most two viable and polarized candidates.

Learn more, join the fun: <http://equal.vote!>

We're proposing a new system that provides us all an **equal** say, **accurately** reflects our collective will in the outcome, is **simple** for us to ballot and for elections officials to tabulate, and allows us to **expressively** share our **honest** opinions. **Try it:**

### Envision Expressive and Meaningful Voting

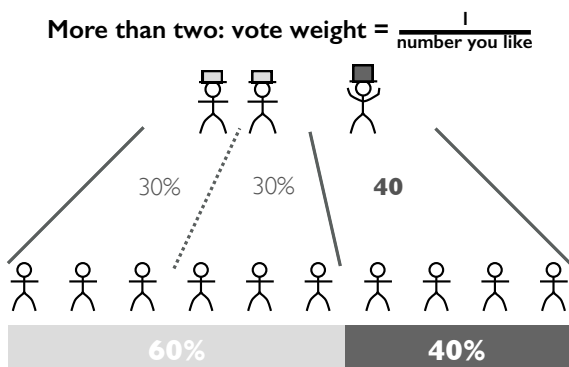

THE RULES: (YES, IT'S REALLY THIS SIMPLE)

The two highest scoring candidates advance to an automatic runoff. In the runoff, your vote goes to the one you scored higher.

	LEAST SUPPORT	MOST SUPPORT
<b>Jill</b> GREEN	0 1 2 3 4 5 6 7 8 9	
<b>Bernie</b> INDEPENDENT	0 1 2 3 4 5 6 7 8 9	
<b>Donny</b> REPUBLICAN	0 1 2 3 4 5 6 7 8 9	
<b>Hillary</b> DEMOCRAT	0 1 2 3 4 5 6 7 8 9	
<b>Marco</b> REPUBLICAN	0 1 2 3 4 5 6 7 8 9	
<b>Marty</b> DEMOCRAT	0 1 2 3 4 5 6 7 8 9	
<b>Gary</b> LIBERTARIAN	0 1 2 3 4 5 6 7 8 9

**How it Works:** Instead of just picking the “lesser evil” for each office, Score Runoff Voting lets you rate every candidate on the ballot, just like Olympic athletes or products on Amazon. The winner is determined in two steps. First, all the scores from the voters are added up:

CANDIDATE	SUM	AVG
Desi	1500	5.0
Bianca	1325	4.4
Allen	1052	3.5
Edith	525	1.8
Chris	401	1.3
Frank	70	0.2

The second step is an automatic runoff between the two highest scoring candidates. **In the runoff, your full vote goes to whichever candidate you rated higher**, so you can score honestly, knowing your favorite in the runoff will get your full support.

Score Runoff Voting - Sample Ballot

The two highest scoring candidates advance to an automatic runoff.  
In the runoff, your vote goes to the one you scored higher.

LEAST SUPPORT

MOST SUPPORT

Allen

0123456789

Bianca

0123456789

Chris

0123456789

Desi

0123456789

Edith

0123456789

Frank

0123456789

So if your ballot looked like this one, your vote in the runoff would go to Bianca, because you rated Bianca higher than Desi.

**We're starting locally**, then working Oregon-wide and nationally, to bring true representative democracy to the U.S. for the first time. **Join us!**
